BMW GROUP LEGAL AI AGENT CHALLENGE

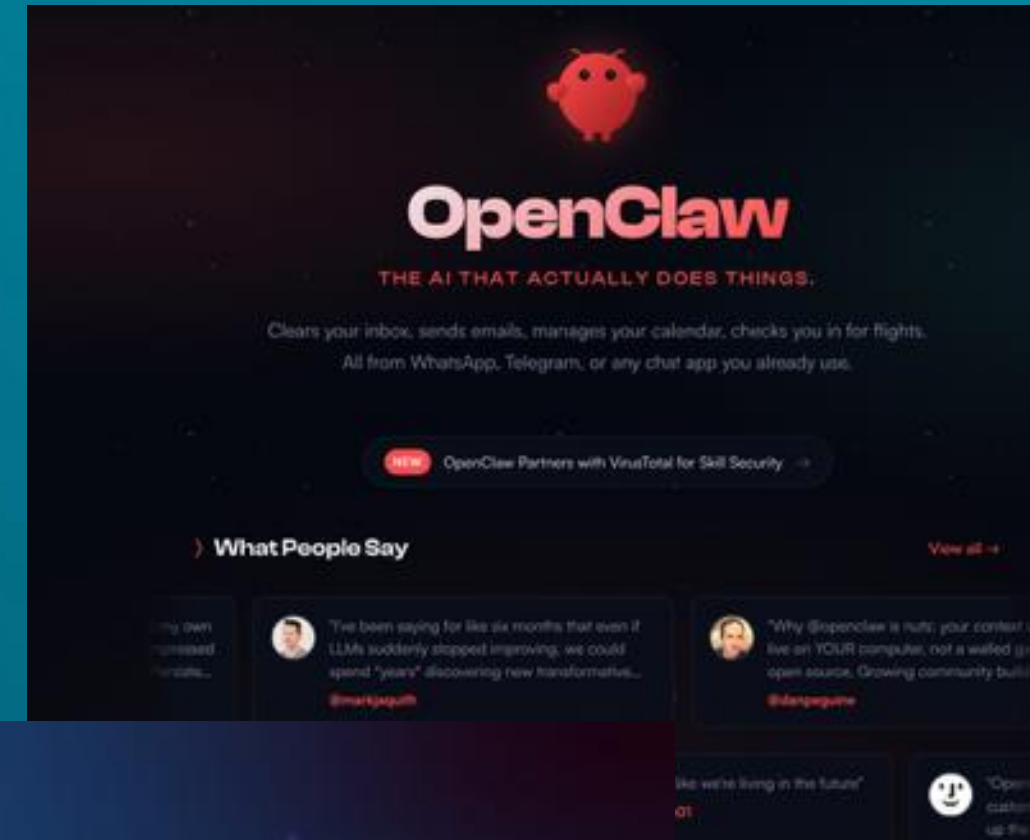

PETER RUTTMANN
BERNHARD WALT

THE LEGAL AI AGENT CHALLENGE

Develop an **AI agent platform for the legal department** – an intelligent, collaborative multi-agent environment that accepts, processes, delegates, reconciles legal tasks autonomously and returns the results to humans in a structured way.

THE VISION: A SCALABLE, MODULAR AI AGENT PLATFORM THAT...

- receives, recognizes and classifies legal tasks
- coordinates tasks and delegates them between agents
- consolidates results in a quality-assured manner
- ensures transparency, traceability and governance
- and interact seamlessly with human lawyers

Cowork: Claude Code
for the rest of your work

How is a legal department working today?

How will it work tomorrow?

POSSIBLE USE CASES FOR AGENTS

Contract drafting, review and negotiation

Country and jurisdiction-specific legal searches (esp. DE, USA, UK, FR)

Processing of dispute cases (in and out of court)

Answering internal legal inquiries (e.g., from specialist agencies)

Compliance checks (e.g., sanctions lists, supply chain law, ESG)

Knowledge Management & Precedent Search

Administrative and non-legal activities (e.g., appointment coordination, auditing)

EXPECTED SOLUTION DESIGN

Identify relevant AI agent frameworks

Identify business requirements – and the business case!

What workflows can be handled by AI agents?

How does this make a Legal Department more efficient?

Define agent roles

e.g., Research Agent, Contract Drafting Agent, Negotiation Agent, Compliance Agent, Risk Assessment Agent, etc.

Scalable technical architecture

Building the AI agent platform and integrating LLMs
AI Agent Orchestration

Implementation: Let's Hack Legal!

RESULTS

Creative solutions and promising solutions

An architectural concept (visually or technically described)

A clickable prototype or functional demonstrator

A clear representation of the added value for efficiency, quality and risk mitigation

Open-source results and software

A motivated team that wants to continue working on the topic
